PROFESSIONAL SUMMARY

Creative and detail-oriented Information Systems student experienced in UI/UX design, front-end development, digital content creation, and business operations support. Skilled in designing user-centered systems, building interactive prototypes, leading creative teams, and using inventory/business software. Seeking internship or entry-level opportunities in IT, UI/UX, data analytics, or digital marketing.

TECHNICAL SKILLS

Design Tools: Figma, Canva, Adobe Photoshop

UI/UX: Wireframing, User Flows, Prototyping, Usability Design

Front-End: HTML, CSS, JavaScript

Business Software: Inflow Inventory Premium (order processing, receipt templates, inventory management)

Other Tools: VS Code, PyCharm, Salesforce, Wix

Data & Productivity: Microsoft Excel, Word, PowerPoint

EXPERIENCE

Inventory & Sales Support Staff

Ever Rising Electrical Supplies | May 21 – June 21, 2026

- Sorted and organized incoming order receipts, maintaining accurate, easy-to-retrieve records for order tracking and audits.
- Processed customer orders and transactions using Inflow Inventory Premium, ensuring accurate and timely order fulfillment.
- Redesigned the company's Inflow Inventory receipt template to match updated business requirements, improving consistency across customer-facing documents.
- Managed day-to-day inventory and order operations in Inflow Inventory, quickly building proficiency that reduced the need for supervision on routine tasks.
- Supported the business owner with daily operational tasks, helping keep store operations running smoothly.

Multimedia and Publications Head

Information Systems Synergy Society (IS3) | July 2026 – 2027

- Direct the organization's multimedia and digital communication strategy, maintaining consistent branding across every published output.
- Oversee production, scheduling, and distribution of multimedia content across a department spanning layout, photography, videography, and web/tech, keeping deliverables on schedule for organizational events.
- Lead promotion of organizational campaigns and updates across digital and social platforms, increasing visibility of organizational initiatives.
- Monitor and maintain the organization's website and social media presence, ensuring consistent accessibility and functionality for members.

Head Layout Artist

Information Systems Synergy Society (IS3) | 2024 – 2026

- Led a team of 4 designers producing publication materials (pubmats) for organizational events, delivering on-brand visuals on schedule for every event.

- Assigned deliverables based on each team member's strengths and workload, balancing output and maximizing overall team efficiency.
- Developed and enforced design standards and quality control guidelines, ensuring consistent, professional-grade visual output across all publications.
- Collaborated with department heads to align on requirements and formats, reducing revision cycles and streamlining approvals.
- Provided feedback and creative direction to team members, raising design quality and improving team performance over time.
- Handled high-priority and complex design tasks personally, sustaining team productivity during peak event periods.
- Supervised structural graphic design projects, ensuring aesthetic alignment with the organization's brand identity.
- Delegated design projects and outlined publishing layout sheets, keeping production on schedule across concurrent events.
- Set technical benchmarks for page aesthetics, typography, and layout, elevating visual consistency across all publications.
- Established collaborative workflows between graphic artists, editors, and photographers, improving cross-team coordination and turnaround time.
- **Events covered (2024):** Merch Pubmat, Captivate Booth, Valentine's Campaign, ISystems Convergence (Mr. & Ms. IS, Yell Competition, Flag Competition, ML Tournament, Quiz Bee, Digital Poster).
- **Events covered (2025):** Executive Committee Turnover.
- **Events covered (2026):** ISnergy (Mr. & Ms. IS, Yell Competition, Typing Battle, Photography Contest, Digital Poster Contest), Open for Applications, Gold Gear Awards, Freshies Salubong Booth.

Freelance Graphic Designer

Part-time | 2023 – Present

- Designed resumes, brochures, logos, and posters for clients, delivering polished materials tailored to each client's brand.
- Created visually engaging materials using Canva and Adobe Photoshop, strengthening each client's visual presentation.
- Partnered directly with clients to understand requirements, resulting in customized designs that met client expectations.
- Developed UI prototypes and simple websites using Figma and Wix, expanding service offerings beyond static design.

PROJECTS

SmartStock – AI Inventory System (UI/UX Design) | 2026

- Designed UI/UX for an AI-powered SaaS platform for MSMEs, creating an accessible, user-centered experience for non-technical business owners.
- Built a high-fidelity Figma prototype covering dashboard, onboarding, and analytics, enabling stakeholders to validate the concept before development.
- Developed user flows for inventory tracking and decision-making, streamlining how users interact with system data.

SmartStock – Inventory System (UI + Development) | 2026

- Designed the UI and developed a web-based system using Django and MySQL, delivering a functional end-to-end inventory solution.
- Built dashboards and forms for inventory and stock management, giving users real-time visibility into stock levels.
- Deployed the system on PythonAnywhere, making it accessible for live use and testing.

ISkolaris – Research Platform (UI/UX Design) | 2025

- Designed a research database interface for students and professors, improving discoverability of academic content.
- Improved platform navigation and accessibility, making research materials faster and easier to locate.

EcoCollect – Waste Management System (UI/UX Design) | 2024

- Designed a digital platform for waste collection scheduling and reporting, streamlining coordination between residents and collection teams.
- Created dashboards, notifications, and reporting interfaces, improving visibility into collection status and reporting accuracy.

Harvest Market – E-Commerce Platform (UI/UX Design) | 2024

- Designed the product catalog, checkout system, and user dashboard, creating a cohesive end-to-end shopping experience.
- Built responsive layouts for web and mobile views, ensuring consistent usability across devices.
